Dear Parents/Caregivers,

The Cancer Council of NSW and the NSW Department of Education & Communities recognise that sunscreen reduces the amount of ultraviolet radiation reaching the skin. As a result we encourage all members of the school community and in particular the students to use a 30+ (or higher) broad spectrum and water based sunscreen.

Students will need to apply their own sunscreen before coming to school and bring sunscreen to reapply throughout the day.

The school will provide sunscreen for use in all classes and at the various sporting events and excursions. The sunscreen provided by the school is 50+ UVA & UVB broad spectrum 4 hours water resistant and contains the following active ingredients: **Homosolate 100mg/g, Octocrylene 80mg/g, Octyl Salicylate 50mg/g, Butyl Methoxydibenzoylmethane 40mg/g and also contains Phenoxyethanol, Benzyl Alcohol, Hydroxybenzoates.**

Please be aware that if your child is to use the school provided sunscreen at intervals, you will need to sign the permission slip below indicating you have read the ingredients. If your child/ren have an allergies to any of the above ingredients, please supply a suitable sunscreen for their use at school.

Theresa Kane
Principal

HENTY PUBLIC SCHOOL
PERMISSION NOTE

I have read the listed ingredients of the 50+ UVA and UVB broad spectrum sunscreen as outlined above.

I hereby give permission for my child/ren ________________________________(full name/s) to use the sunscreen supplied by the school.

To the best of my knowledge, he/she has no allergies to any of the listed ingredients above. This consent remains valid from the signed date to 20th December 2016.
